THE ORIGINAL HOLLYWOOD VIBRA-TONE IS THE SUPREME ACHIEVEMENT IN HOME MASSAGE UNITS!

THERE IS NO OTHER LIKE IT!

CAN BE USED STATIONARY OR WITH A ROLLING MOTION!

Soothing, Relaxing, Massage is easy with Hollywood VIBRA-TONE by fischer

Reliability! . . . Backed by many years of experience building Electro Therapy Devices for Hospitals and Doctors' Offices.

Handsome carrying case.

Zippered 1-inch airfoam rubber pillow.

Relax tired muscles by helping to—
Relieve Nervous Tension
Promote Better Surface Circulation

ONLY THE *Original* HOLLYWOOD VIBRA-TONE HAS ALL THESE QUALITY FEATURES:

1. **Vibrations can be changed instantly from gentle massage to heavy stimulation by simply increasing the pressure on the unit handle, or on the pillow.**

2. **Zippered pillow is 1-in. airfoam rubber of highest quality, covered with attractive, durable fabric.**

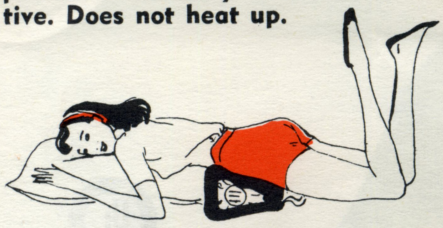
3. **Soft rubber rollers permit easy movement over the area being massaged without stretching the skin. Rollers turn and lock in position for either up-and-down or side-to-side massage.**

4. **Custom, lightweight housing is made of extra tough Melamine plastic. Electrically non-conductive. Does not heat up.**

5. **Ball-bearing, heavy duty motor never needs oiling. Grease-packed at the factory. Operates on ordinary 60-cycle, 115-volt AC house current.**

   High velocity axial flow fan . . . plus Hollywood Vibra-tone's exclusive air ducts and interior ribs spaced around the motor—keeps the unit cool.

6. **Guaranteed for one year from date of purchase against faulty material or workmanship. Backed by many years of experience in manufacturing electro-therapy equipment for the medical profession.**



UNDER THE STOMACH

UNDER THE SMALL OF THE BACK

THE ORIGINAL HOLLYWOOD VIBRA-TONE by fischer stimulates surface circulation which contributes to the carrying away of waste products in the surface tissue. This healthy circulation brings about relaxation and a "good feeling". (Note: a doctor should always be consulted before massaging whenever any abnormal condition is present. Do not use this device over swollen or inflamed areas or skin eruptions).

Begin massaging with the Vibra-tone at the base of the neck and follow down the spine to the lower regions of the neck.

Massage at the base of the neck and travel out over the muscles in the right shoulder. Repeat out over the left shoulder.

Use the Vibra-tone in other parts of the back and arms where muscles are tight and sore due to over-exertion. Perfect for use after tennis. golf, swimming and other athletic activity.

Use of the Vibra-tone at the base of the neck will provide relaxation because this area is generally the center of muscle tautness caused by emotional upsets.

Immediate relaxation and relief to taut muscles is given by using the Vibra-tone under the bottom of the feet.
